Included in Package

- 507329-0000 AA

 Specifications

- **Power:** 45 Watt
- **Weight:**
  - Light: 2.6 lbs
  - Stand: 1.2 lbs
- **Adjustable Stand Legs Height:**
  - 10.43” to 16.3”
- **Grow Area:**
  - 10”D x 21.5”W
- **Swivel:** 360 Degrees
- **Lifespan:** Up to 50,000 hours
- **Adapter input:**
  - 100-240VAC 50/60Hz
- **Light Panel Input:**
  - 24VDC 1.8A

Model AG4501

- 45 Watt Grow Light (1)
- Stand Legs (2)
- Hanging System:
  - Carabiner (1); Hooks (4)
- Power Adapter (1)
- Hanging Wire (1)

Included in Package

- 507329-0000 AA
Use your LED Grow Light System in Two Ways:

1. Seed Starting Stand
   - Fits over any standard seed starting tray
   - Push up locking clamp on stand leg and align with opening under hood
   - Push in until it clicks into place
   - Repeat on other side

   ![Image of Seed Starting Stand]

   **How to Raise & Lower Hood on Stand**
   - Press 'Release Button' on stand leg
   - Gently, with one hand, push hood up on that side
   - Press 'Release Button' on second leg
   - Push up hood to match height

2. Grow Light Hanging System
   - Insert hooks into each one of the small openings at each corner of the top of the hood.
   - With 4 hooks in place, attached carabiner to an appropriate hook or other fixture.
   (Weight of hood: 2.6 lbs)

   **Features**
   - The AeroGarden 45W LED Grow Light is designed to stimulate plant growth by producing light at the specific wavelengths required for photosynthesis
   - Perfectly sized for a standard sized seed starting tray
   - Suitable for any plant growing method, including soil, aquaponics and hydroponics
   - Easy to install on Stand or with Grow Light Hanging System kit (Included)
   - Three band LED lights in red, blue and daylight color spectrum
   - Red LED’s for fruiting, Blue for vegetative growth, White for penetration into canopy and plant cells
   - 360° swivel capabilities
   - Stays cool, no heat buildup
   - Energy efficient, just 45 Watts

   **Benefits**
   - LED grow light optimized for big, fast growth
   - Lifespan: up to 50,000 (8.5 years at 16 hrs/day)
   - Ideal for all stages of growth, from seed starting to flowering
   - No harsh purple glare like other grow lights
   - Low heat

   **Tips**
   - Keep light as close to plants as possible
   - At least 16 hours of light daily recommended for best growth
   - Prune tall, fast growing plants from the top and keep LED Grow Light as close as possible to all plants. This allows light to reach any smaller, slower growing plants. If the light is too far from the plants, growth may slow significantly or plants can stretch for light and look spindly.
