LIMITED WARRANTY

WHAT IS COVERED – This warranty covers any defects in materials or workmanship, with the exceptions stated below.

HOW LONG COVERAGE LASTS – This warranty runs for one (1) year on the LED Grow Light from the date of original purchase, for the original purchaser/user.

WHAT IS NOT COVERED – The warranty shall not apply to problems arising from: normal wear; failure to adhere to enclosed operating instructions; serial numbered products if the serial number has been removed or defaced; products subject to negligence, accident, improper use, maintenance or storage; products damaged by circumstances beyond AeroGrow International Inc.'s control; loss or damage to removable parts; or products modified (including, but not limited to, modifications through the use of unauthorized parts or attachments) or repaired by anyone other than AeroGrow International, Inc., or its designee. This warranty excludes all incidental or consequential damages.

WHAT AEROGROW WILL DO – AeroGrow International, Inc., at its option, will repair any defect in materials or workmanship or will replace this product with ones of similar features and price. AeroGrow International, Inc.'s sole obligation and your exclusive remedy under this warranty shall be limited to such repair or replacement.

TO RETURN THIS PRODUCT – If you have questions or concerns regarding your Grow Light, please contact Customer Service at 1-800-476-9669. **Please do not return any product without contacting AeroGrow for return authorization.** Unauthorized returns, as well as C.O.D. shipments, will be refused. For more information regarding returns, please see the Returns section at www.AeroGarden.com

Due to continuing improvements, actual product may differ slightly from the product described herein. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may have other legal rights that vary from state to state.

AeroGarden 12W LED GROW LIGHT

The 12W LED Grow Light fits in any standard light socket. Just twist into place and watch the amazing results! Plants will flourish in places that have little or no sunlight.

When germinating new seeds, keep light 4-6" from the top of your starter tray. Once plants have germinated and are growing keep the light as close to the plants as possible for optimal growth. The 12W LED Grow Light works best in a 12" x 12" or smaller area. For larger areas, use multiple lights.

For best growth, prune tall, fast growing plants from the top and keep LED Grow Light just an inch or two above plants. This allows light to reach any smaller, slower growing plants. If the light is too far from the plants, growth may slow significantly or plants can stretch for light and look spindly.

FEATURES & BENEFITS

The AeroGarden 12W LED Grow Light is designed to stimulate plant growth by producing light at specific wavelengths required for photosynthesis.

- LEDs Optimized for Big, Fast Growth—Guaranteed!
- It's Miracle-Gro. Trusted. Safe. Long-Lasting
- Easy to install in any standard socket (E26)
- 4 band LED lights in red, blue & daylight white color spectrum
- Energy efficient – just 12 watts!
- Long lasting lifespan – of up to 50,000 hours (8.5 years at 16 hrs/day)
